REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The applicant has clarified in their remarks filed March 30, 2010 that the torsion and detorsion is applied to the **same molten portion** of the fiber. As noted by the applicant, the prior art teaches applying torsion and detorsion to the fiber in an alternating fashion. That is, one stretch of fiber will have a torsion in one direction and the subsequent stretch of fiber will have a detorsion in the opposite direction; this pattern repeating in an alternating fashion. Basically, each portion of the drawn glass material will have either a torsion or a detorsion and not both. In light of the applicant's remarks, the claim limitation of claim 8 will be interpreted as a torsion and detorsion is applied to the **same** viscous portion of the drawn glass material. The prior art fails to teach or suggest applying a torsion and detorsion to the same viscous portion of the drawn optical fiber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to QUEENIE DEHGHAN whose telephone number is (571)272-8209. The examiner can normally be reached on Monday through Friday 8:30am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Daniels can be reached on 571-272-2450. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
